WHEREAS, the West Lauderdale County Water and Fire Protection Authority (the "Authority") was formed pursuant to Chapter 88 of Title 11 of the Code of Alabama, (1975), as amended (Section 11-88-1 *et seq.*) by the filing of its Certificate of Incorporation in the Office of Judge of Probate of Lauderdale County on September 6, 1966, in Volume 11, Page 29 *et seq.* (the "Original Certificate of Incorporation")

WHEREAS, the governing body of the Authority has adopted a resolution on March 5, 2026, proposing to amend its Original Certificate of Incorporation for the purposes of: (i) amending its name to be "WEST LAUDERDALE WATER AUTHORITY"; (ii) amending the location of the principal office of the Authority to be 3353 County Road 200, Florence, Alabama 35633; and (iii) updating the service area of the Authority to which it provides water service to include new areas not set forth in the Original Certificate of Incorporation, specifically including service within the municipal limits of the Town of Waterloo, Alabama;

At the time of the acquisition of the waterworks distribution system of the Town of Waterloo, Alabama, by the Authority, the governing body of the Town of Waterloo, Alabama had adopted an ordinance declaring its intent to convey to the Authority its interest in its waterworks distribution system.

(3) **Findings.** The proposed amendment will promote the public health, convenience, and welfare of the citizens of Lauderdale County, Alabama.

Your Comcast voice service ("Voice Service") may have the following 911 limitations:

- For 911 calls to be properly directed to emergency services using the Voice Service, Customer must provide the correct address information ("Registered Service Location") for each telephone number used by Customer. The Registered Service Location may also include information such as floor and office number.
- If the Voice Service or any Voice Service device is moved to a different location without Customer providing an updated Registered Service Location, 911 calls may be directed to the wrong emergency authority, may transmit the wrong address, and/or the Voice Service (including 911) may fail altogether. Customer's use of a telephone number not associated with its geographic location, or a failure to allot sufficient time for a Registered Service Location change to be processed, may increase these risks.
- If a Registered Service Location is deemed to be in an area that is not supported for 911 calls, Customer 911 calls will be sent to an emergency call center where a trained agent will ask for the caller's name, telephone number, and location, and then will contact the local emergency authority.

- The Voice Service uses electrical power in the Customer's premises. If there is an electrical power outage, 911 calling may be interrupted if back-up power is not installed, fails, or is exhausted. Voice Services that rely on a broadband connection may also be interrupted if the broadband service fails.
- Calls using the Voice Service, including calls to 911, may not be completed if there is a problem with network facilities, including network congestion, network equipment, and/or power failure, a broadband connection failure, or another technical problem.

Registered Service Location Updates- The Registered Service Location will be provided to Public Safety Answering Points to assist in responding to a 911 call. Customer may update or otherwise customize the Registered Service Location by:

- Calling Comcast at 1-888-824-8104
